

REACH STATEMENT

REGISTRATION, EVALUATION, AUTHORIZATION AND RESTRICTION OF CHEMICALS

REACH is a new European Community Regulation on chemicals and their safe use (EC 1907/2006). It deals with the Registration, Evaluation, Authorization and Restriction of Chemicals. The new European law became effective on June 1, 2007.

REACH is designed to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances. At the same time, innovative capability and competitiveness of the EU chemicals industry should be enhanced. The benefits of the REACH system will come gradually, as more and more substances are phased into REACH.

Sekisui Voltek, LLC supports the goals of REACH.

REACH deals primarily with substances, defined in REACH as "a chemical element and its compounds in the natural state or obtained by any manufacturing process, including additives necessary to reserve its stability and any impurity deriving from the process used, but excluding any solvent which may be separated without affecting the stability of the substance or changing its composition" (Article 3.1 REACH).

Volara and Volextra are considered Articles, as defined in REACH [as "an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition"(Article 3.3 REACH)].

Periodically, a list of Substances of Very High Concern, SVHC will be issued. Articles containing SVHC's must be registered.

Please see Marketing Bulletin # 28 for the most current SVHC's.

SVHC STATEMENT

SUBSTANCES OF VERY HIGH CONCERN

Sekisui Voltek, LLC does not knowingly add any of the SVHC's, Substances of Very High Concern, as defined by REACH, to our Volara® and Volextra® products. Nor do we knowingly use any of the same substances in the manufacturing process of our products.

On December 19, 2011 the ECHA added twenty substances to the Candidate List which now contains seventy-three substances. The Candidate List, including the substances which ECHA added to this list, is available on ECHA's website:
