

1. Identification of Substance and manufacturer/supplier

Product details :

Commercial name: MINICEL L grade(Crosslinked Polyolefin foam)
Manufacturer/Supplier YOUNGBO Chemical Co., Ltd.
236, Pokyong-dong, Yoosung-gu, Taejeon-city,
South Korea Telephone : 82-42-820-9231
Telefax : 82-42-820-9170

2. Composition/data about components.

Description: Polyolefin cross linked foam with additives

Components: Polyethylene(96~97%), pigment(less 1%)
blowing agent(less 2%)
crosslinking agent(less 0.1%)

3. Hazard identification

Hazard designation Void

4. First aid measures

After skin contact After contact with the molten product, cool with cold water and consult a doctor.

5. Fire fighting measures.

Suitable extinguishing agents: CO₂, Water jet

Special hazards caused by the material, its products of combustion or resulting gases: Formation of toxic gases is possible during heating or in case of fire/Avoid to breathe the fumes.

Protective equipment: Put on breathing apparatus

6. Accidental release measures.

Person-related safety precaution: Void

Measures for environmental protection: Void

Measure for cleaning/collecting: Void

7. Handling and storage.

Handling

Information for safe handling: Prevent formation of dust

Information about protection against explosions and fires: Keep breathing equipment ready

Storage

Requirements to be met by storerooms and containers: Keep away the flames

Further information about storage conditions: Storage preferably in cover places

8.Exposure controls and personal protection.

Personal protective equipment

General protective and hygienic measures:

Avoid skin contact with the molten material

9.Physical and chemical properties

Form :	Solid in various forms
Color	According to product specification
Odour:	Light
Change in condition	VALUE/RANGE
Melting point:	PE foam: 90~115 °C
Flash point:	Not applicable
Ignition temperature:	Not applicable
Density at 23 °C :	According to product specification
Solubility in/miscibility with water:	Insoluble

10.Stability and reactivity.

Stability :	Stable
Thermal decomposition/conditions to be avoided:	No decomposition
Dangerous products of decomposition:	The thermal decomposition can produce fumes with carbon monoxide

11.Toxicologic information.

Acute toxicity:	
Primary irritant effect:	
On the skin:	No irradiation effect
Additional toxicological information:	When used and handled properly according to the standard conversion systems, the product dose not have any harmful effects according to our experience and the information provided to us.

12.Environmental protection

Environmental hazard	Not applicable
-----------------------------	----------------

13.Disposal considerations.

Product Recommendation:	Not applicable
--------------------------------	----------------

14.Transport information.

Land transport ADR/RID(cross-border):
ADR/RID-GGVS/E Class:
Substance Index Number:

Maritime transport IMDG:
Correct technical name:

Transport/Additional information:	No dangerous good according to international transport regulations.
--	---

15.Regulatory information

KOREA:

Not applicable

16.Other information:

The above information is based on data of which we are aware is believed to be correct as of the date hereof. Since the information contained herein may be applied under conditions beyond our control and with which we may be unfamiliar and since data made available subsequent to the date hereof may suggest modifications of the information, we do not assume any responsibility for the results of its use.

This information is furnished upon the condition that the person receiving it shall make his own determination of the suitability of the material for his particular purpose. Therefore, no warranty either express or implied of merchantability or fitness for particular purpose is made with respect to the product or the information contained herein.
