

FDA Food Contact Compliance Statement

Volara® Type A, G, EA, EO, HPT, and TBX, irradiation cross-linked polyolefin foams comply with the Food and Drug Administration regulations for use in contact with food.

Specifically, Volara Type A, G, EA, EO, HPT, and TBX are manufactured from polyolefin resins complying with 21 C.F.R 177.1520 (c) 2.1 or 21 C.F.R 177.1350 and meet C.F.R 178.3010. Also, Volara Type A, G, EA, EO, HBT, and TBX comply under C.F.R 177.1210, "Closures with sealing gaskets for food containers."

This means that a whole new series of food container and food contact applications are now possible using Volara.
